

Bed & Breakfast

La Noirie

We have traveled the world for a long time, but Noirie has remained our home port in which we have collected memories of distant countries. You can fully enjoy the charm of this old farmhouse nestled in the middle of meadows in the grove where the Charolais white oxen graze peacefully. We will suggest wonderful walks in the shady paths on foot, by bike, on horseback or with a pack donkey. For Roman art enthusiasts, each of the villages has its own little church wonder with its own particularity. And for lazy days, the sun loungers await you by the pool under the birch trees. Only the birds that live in the facade will wake you up in the morning so that you can enjoy breakfast on the terrace.
