

## Gardens & natural areas

### Les jardins des Soussilanges

Nestled in the heart of a South Burgundy valley, our natural garden is organized in five enclosed spaces revolving around an 18th century Bourbonnaise residence. The atmospheres follow one another to the rhythm of the winks, the perennial beds, the rose beds, the grass beds and the water lily basins open onto the surrounding countryside.

Created in 2003 on half a hectare, the gardens of Soussilanges reveal themselves at the rhythm of each one. The informed visitor will exchange his impressions, the dreamer will escape to the grés of the atmospheres and the poet who slumbers in each one will perhaps draw the inspiration there..

Gardens and countryside become one, time stops, it's time for an intimate stroll in the heart of the French bocage.
